The optimal frozen food and dessert merchandising solution.

Virtually eliminates product stales with an operating temperature ranging between -15°F to +10°F.

À la Carte presents the powerful advantage FIFO glass front merchandising to deliver a large variety of frozen food products . . . sandwiches, snacks, entrees, ethnic foods, ice cream novelties and frozen desserts.

Merchandise to the maximum

- Large 26" x 44" glass display window showcases popular products and consumer brands.
- Extra tall shelf heights accommodate a wide variety of products. Clearance height between shelves (top to bottom): Shelf 1 - 6.75"; Shelf 2 - 7.0"; Shelf 3 - 8.0"; Shelf 4 - 7.0"; Shelf 5 - 6.75".
- Single or dual spiral selections and adjustable column dividers create dimensional flexibility and appropriate space-to-sale inventory.

Designed to stay frigid inside

- Electronic temperature settings in 1°F increments from -15°F to +10°F.
- 3/4 HP Compressor, R404A sealed refrigeration system. Cassette design with convenient service from the front. Pull down from 75°F to 0°F in ~75° minutes.
- Extra thick foam-in-place insulation ensures cabinet air seal integrity.
- Triple-pane, heated glass inner door.
- 3 or 4 defrost cycles per day, timed, automatic and on demand.

- In the event of power loss, A la Carte will retain freezing temperatures up to 10-hours (frozen set at -15°F, 70°F ambient and 3/4 full of product).

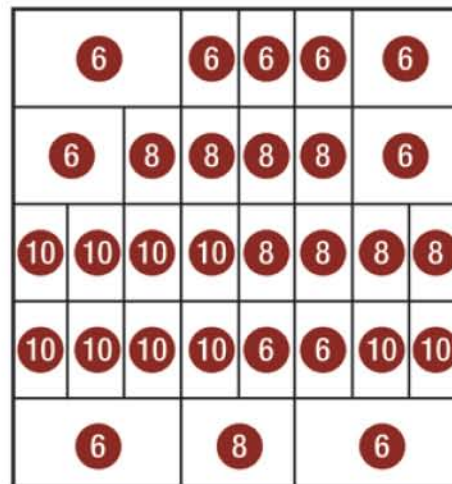

Guaranteed product delivery

- Because retail prices can range in multiple dollars, we positioned 12 sets of transmitters and receivers in the ambient temperature product delivery area to ensure consumers receive their product or get their money back.

Intelligent electronic features keep business on track

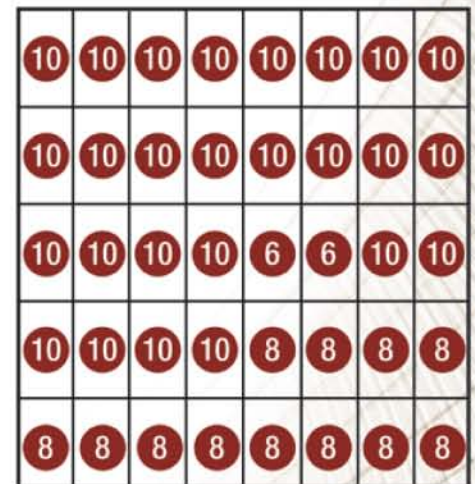

- Fast Track keypad saves time with shortcuts to most commonly used service functions.
- Configuration uploading and downloading.
- Extensive service diagnostics.
- Multi drop buss (MDB) ready.
- Personal computer interface for uploading new machine software.
- Printer interface.
- Standard language software English/Spanish or English/French (Canada).

STANDARD CONFIGURATION - Model 460

30 selections, 238 capacity (as shown)

STANDARD CONFIGURATION - Model 460

40 selections, 368 capacity (as shown)
